FOR REFUGEES**

**CHIEF COMMISSIONERATE AFGHAN REFUGEES,
GOVERNMENT OF PAKISTAN**

Islamabad, Pakistan 1986

PREFACE

This Manual represents a first effort at organizing, in one document, the extensive guidelines used by the staff of the Afghan Refugee Health Programme in providing health services to the Afghan refugees in Pakistan. It is intended to be used as a reference by the staff and it serves as a description of the standards of care established for the programme.

Many talented and generous people have contributed to this Manual. Dr. Nabil S. Al-Tawil, WHO Representative; Dr. Witjaksono Hardjotanojo, WHO Senior Advisor, Expanded Programme on Immunization; Mr. Joseph A. D'Emidio, WHO Sanitary Engineer, Community Water Supply and Rural Sanitation; Dr. Giovanni de Virgilio, Director, and Dr. Sergio Spinaci, Deputy Director, Italian Cooperation for Development; and Dr. Birger Forsberg, WHO Expert on Control of Diarrhoeal Diseases gave freely of their expertise by writing or extensively reviewing the material relevant to their fields. Any errors that may occur in the final presentation of their work are the responsibility of the Editors. Valuable comments and suggestions on the draft of this document were made by Dr. Sheila Patel, Dr. Levi Roque, Dr. Aurang Zeb Khan and Dr. Abdul Qadeer Khan. The publication of this manual would not have been possible without the excellent manuscript preparation carried out by Ms. Najia Majid, Ms. Marion Goshawk and Mr. Mohammad Ashraf. To each of the people involved in the development of this resource, the Editors acknowledge their gratitude.

As the initial attempt at documenting information that is both very technical and voluminous, the Editors recognize that errors in selection will have been made. We ask for the readers' patience. A revision of the manual is part of our future plans, but we sincerely hope that the present book serves its purpose as a useful resource.

Jeral Ahtone, M.D.
WHO/UNHCR Senior Health
Coordinator

TABLE OF CONTENTS

	PAGE
PART I: MEETING THE NEEDS OF THE AFGHAN REFUGEES	
Chapter 1. Afghan Refugees in Pakistan	1
Location of Refugees	1
Afghan Refugee Programme Admin- istration	2
Socio-economic Characteristics of the Refugees in Afghanistan	2
Socio-economic Characteristics of the Refugees in Pakistan	4
Chapter 2. Major Health Needs	7
Health Status in Afghanistan	7
Health Status in Pakistan Refugee Villages	8
Infant and Child Mortality and Nutritional Status	8
